Chinese Bitcoin (□□□) Whitepaper

A Meme Coin for the Red & Gold Future

Introduction

Chinese Bitcoin (□□□) is the ultimate meme coin blending Chinese cultural symbolism with the chaotic energy of internet culture. Fueled by the power of memes, community, and a little red-and-gold luck, this token is for degens who believe in prosperity and moonshots.

Tokenomics

- Total Supply: 1,000,000,000 $CHBTC
- Distribution:
  - 50% Public Sale
  - 20% Community Rewards & Airdrops
  - 15% Team (locked for 12 months)
  - 10% Marketing & Partnerships
  - 5% Liquidity Pool
- Burn Mechanism: 1% of each transaction is burned to increase scarcity.

Roadmap

Q2 2025 – Launch token & meme campaign

Q3 2025 – Listing on DEXs, first airdrop, NFT drop

Q4 2025 – Chinese New Year promo + staking feature

2026 – Global domination (or at least, viral TikTok presence)

The Team

- Emperor Satoshi □□ – Supreme Meme Strategist
- General Wokchain – Lead Blockchain Dev (probably AI)
- Lady Red Lantern – Community Overlord & Vibe Curator

- The Great Firewall – Security Chief (definitely real)
